Windows 10 End-of-Life: Is your organisation ready?

SYNTURA

What's the issue?

Microsoft is ending support for Windows 10 in October 2025.

This means no more security updates, patches, or technical assistance — leaving businesses exposed to security risks, compliance challenges, and increasing operational costs.

What does this mean for your organisation?

01 Security & Compliance Risks
Without updates, your endpoints become vulnerable to cyber threats and non-compliance penalties.

02 Operational Disruption
Legacy systems may fail to integrate with modern tools, slowing down workflows and user productivity.

03 Rising Costs
Extended support is expensive, and constant patching drains IT resources that could be better used elsewhere.
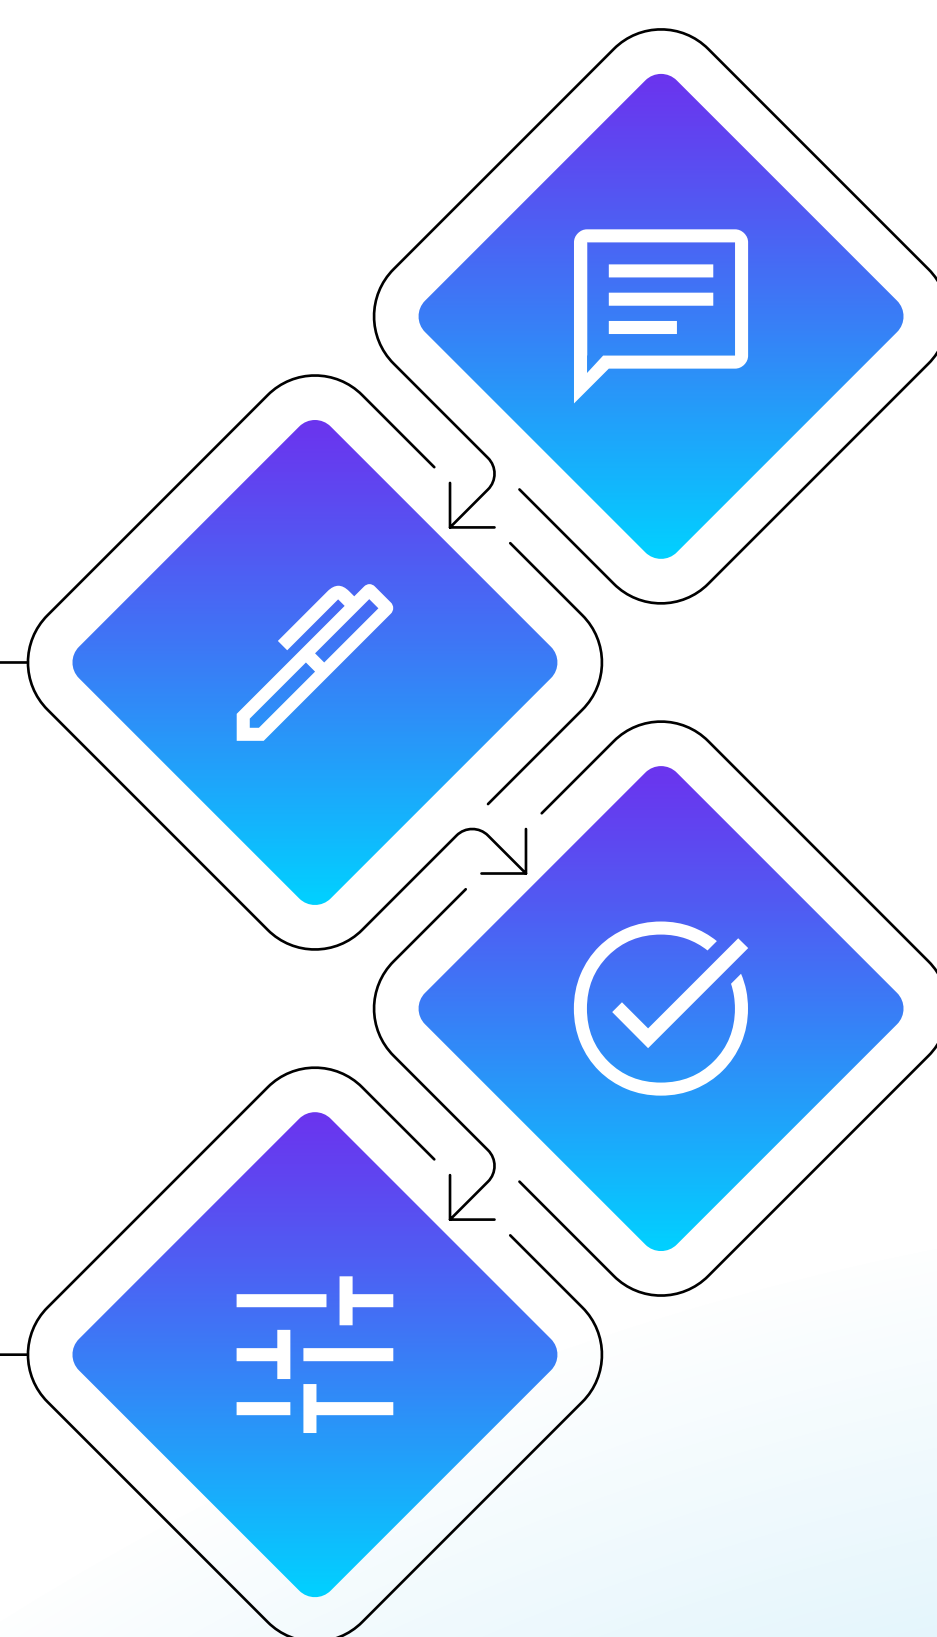

Accelerated Solutions Framework

An expert-led approach to help your business transition from Windows 10 to 11—securely, efficiently, and in just one month.

02 Design
Deliver a Proof of Concept to validate compatibility, performance, and effort—forming the foundation for your tailored migration plan.

04 Optimise
Offer ongoing support and strategic guidance to help your business stay secure, compliant, and efficient beyond migration.

01 Advise
Start a discovery session to understand your current IT environment, business needs, and readiness for Windows 11.

03 Deploy
Create and hand over a full migration plan, detailing the path to deployment, hardware needs, and licensing recommendations in 30 days.

Are you ready to mitigate the risk?

This is more than just a version upgrade. It is an opportunity to mitigate risk, ensure compliance, and future-proof your IT operations.

With Windows 10 support ending, organisations face growing security risks and operational disruptions. Syntura's proven accelerated migration plan helps you act now — minimising risk, unlocking modern workplace capabilities, and ensuring your business stays secure, productive, and ahead of the curve.

Book a free 30-minute consultation with one of our experts and get your ready-to-deploy migration plan in just 30 days.
